

Hi Dr. DiMaio,

According to my peer review, while I have a good format and body paragraphs relating the coffee to my personal experience, the introduction paragraph is not effective enough and the parallels between the two can be further developed.

Thanks to the precious advice I received from my classmates, the following changes have been made to my essay:

- Major changes are made to build a better introductory paragraph
- Strengthened the correlations between my gaokao experience and coffee
- Reduced some content in the conclusion part to reduce redundancies
- Minor changes to the works cited references
- Corrected some grammar mistakes

Thank you!

Best wishes,
Lixiao Yang
